How to Determine Which Vermont Vehicles Have a 15 Year or 150,000 Mile Emissions Warranty

Introduction

This document provides guidance on how to identify vehicles registered in Vermont that have an extended emissions warranty of 15 years or 150,000 miles (whichever comes first). Starting with the 2003 model year, vehicles registered in Vermont that are designated as PZEVs (Partial Zero Emission Vehicles), AT-PZEVs (Advanced Technology Partial Zero Emission Vehicles), or TZEVs (Transitional Zero Emission Vehicles) have this extended emissions warranty. These vehicles meet the cleanest tailpipe emissions standards and have zero evaporative emissions. In addition, vehicles that generate additional NMOG + NOx fleet average credits also have this extended emissions warranty.

How to Identify These Vehicles

First, based on model year, make and model, determine if the vehicle is included in the list on the following pages. If the vehicle is included on this list, then note the TEST GROUP code listed in the far right column. Next, check the vehicle's Vehicle Emission Control Information (VECI) label to determine if the vehicle conforms to California Regulations. The VECI label is located in the engine compartment, typically on the underside of the vehicle's hood. An example of an actual VECI label is shown. In this example, the statement confirming that the vehicle conforms to California Regulations is located in the left portion of the label. Next, identify the vehicle's engine TEST GROUP code also found on the VECI label. In this example, the engine TEST GROUP code (**6FJXX02.5NVD**) is located in the upper left portion of the label. Note that some VECI labels may use the term 'GROUP' or 'ENGINE FAMILY'

Example Vehicle Emission Control Information Label

in lieu of the term 'TEST GROUP'. However, do not confuse the EVAPORATIVE FAMILY code (sometimes identified as 'EVAP FAMILY' or 'EVAP') with the engine TEST GROUP code.

Finally, if the engine TEST GROUP code on the vehicle's VECI label matches the TEST GROUP code on the list, the vehicle has an emissions warranty of 15 years or 150,000 miles (whichever comes first).

Notes on Make/Model Listing

- For model years 2004 through 2008, Chrysler, Dodge, Jeep and Mercedes-Benz brand vehicles are listed under the make Daimler Chrysler. For model year 2009 through 2015, Chrysler, Dodge and Jeep vehicles are listed under the make Chrysler LLC, while Mercedes-Benz vehicles are listed under the make Daimler. Starting with model year 2016, Chrysler, Dodge and Jeep vehicles are listed under the make Chrysler.
- Ford, Lincoln and Mercury brand vehicles are listed under the make Ford.
- Buick, Cadillac, Chevrolet, Pontiac, and Saturn brand vehicles are listed under the make General Motors.

Caution

Not all vehicles of a given model have the 15 year or 150,000 mile emissions warranty. Only those vehicles conforming to California Regulations with an engine TEST GROUP code matching the TEST GROUP code on this list have this extended warranty. The engine TEST GROUP code located on the vehicle's VECI label is the final determinant in identifying those vehicles that have the 15 year or 150,000 mile emissions warranty.

For More Information

For specific information about the vehicle's emissions warranty, including systems and parts covered, refer to the vehicle's emissions warranty booklet. For general information about vehicle emissions warranties, refer to the VCERTT Emissions Warranty Fact Sheet.

Vermont Vehicles with a 15 year/150,000 mile emissions warranty
